Each person who has access to this document must fill in the information below the first time that he/she has access.

The attached document contains Confidential Business Information obtained under the Toxic Substances Control Act (TSCA 15 U.S.C. 2601 et seq.) TSCA Confidential Business Information may not be disclosed further or copied by you except as authorized in the procedures set forth in the TSCA Confidential Business Information Security Manual.

If you willfully disclose TSCA Confidential Business Information to any person not authorized to receive it, you may be liable under section 14(d) of TSCA (15 U.S.C. 2613(d)) for a possible fine up to \$5,000 and/or imprisonment for up to one year. In addition, disclosure of TSCA Confidential Business Information or violation of the procedures cited above may subject you to disciplinary action with penalties ranging up to and including dismissal.

DCO must fill in blanks below if a manual logging system is used.

contains No CBI  
per Submitter

A. Heath  
3/8/88

Pursuant to 40 C.F.R. Section 717.17, and in response to the January 19, 1988 Federal Register notice (53 Fed. Reg. 1408-1409) requesting the submission of copies of TSCA 8(c) records of significant adverse reactions relating to the specified list of tri (alkyl/alkoxy) phosphates and diisocyanates, Union Carbide Corporation submits the enclosed abstracts of relevant 8(c) records in 2 sets. As provided in 40 C.F.R. Section 717.19, one set is marked "BUSINESS CONFIDENTIAL" ("BC") and the other has the "BC" material deleted for the public file. The confidential information that is withheld would, if released publicly, reveal information about the identity of Union Carbide's customers. All copies bear the Docket Number 8cF-0188-0002, pursuant to the instructions in the Federal Register notice.

A search of our TSCA 8(c) system revealed only allegations related to diisocyanates. We presently have no TSCA 8(c) allegations related to tri (alkyl/alkoxy) phosphates.

The diisocyanate implicated in each of the 29 attached allegation records is summarized below.

| <u>Allegation No.</u> | <u>Diisocyanate(s) Implicated*</u> |
|-----------------------|------------------------------------|
| 84-0072               | TDI                                |
| 84-0320               | TDI, "Other Isocyanates"           |
| 84-0403               | TDI, MDI, "Isocyanates"            |
| 84-0421               | TDI, MDI                           |
| 84-0569               | TDI                                |

## TSCA 8(c) - RECORD OF ALLEGATIONS OF SIGNIFICANT ADVERSE REACTIONS TO HEALTH OR THE ENVIRONMENT

BEFORE COMPLETING - READ INSTRUCTIONS ON REVERSE SIDE

ALLEGATION # 84-0072

LOCATION OF RECORDS LAW

1. **Description of Allegation:**

- (a) Copy of original allegation - internal or external (please attach)
- (b) Type of allegation (check one): Human Health ☒ Environment ☐
- (c) Summary of allegation: Customer employees complain that exposure to TDI during  
manufacture of freezer chests over varying years caused permanent injury to their lungs,  
respiratory system, and other areas of their bodies Each have experienced shortness of  
breath, severe coughing and wheezing, and other physical traumas.

2. **UCC Employee Receiving Allegation:** Peter F. Davey

Date Received: 05 / 01 / 85 Site: Danbury, CT Title: Attorney

3. **Implicated Substance, Article, Company Operation/Process or Site Discharge:**

- (a) (i) Identify by Name: TDI  
(product / chemical / mixture / article)
- (ii) Synonyms: Toluene Diisocyanate
- (iii) Chemical Family: Isocyanates
- (b) Operation/Process: production of polyurethane foam
- (c) Site Discharge: \_\_\_\_\_  
(effluent, emission, discharge)

4. **Description of Allegor:**

- (a) Name of Allegor: see complaint (multiple)
- (b) If human health effect alleged include: Sex M ☐ F ☐ U (unknown) ☐ multiple
- (c) Status of allegor: (check one)
- (i) Employee UCC ☐ non-UCC ☒ Date of Birth (if known)     /     /
- (ii) Customer \_\_\_\_\_ (iii) User \_\_\_\_\_
- (iv) Other (describe: neighbor, community official, Union Representative, etc.)  
employees of Whirlpool (St. Paul, Minnesota)

5. **Follow-up Investigation:**

- (a) Check one no ☐ yes (if yes, attach copy) ☐

6. **Litigation:** check General Denial ☒

7. **Other Required Record?** no ☒ yes (if yes, attach copy) ☐

UNION  
CARBIDE

BUSINESS  
CONFIDENTIAL

## **GENERAL INSTRUCTIONS**

**Note:** Allegation number and Location of Records will be completed by Danbury as part of the centralized 8(c) file system. Instructions are provided by line number.

### **1. Description of Allegation:**

- (a)** Attach a copy of the original written and signed allegation to this form. Such an allegation may be made within UCC by an employee (Internal) or to the corporation (External - from a customer, neighbor, user, union, etc.) An allegation must be written and signed. If an oral allegation is made you do not have to write it down if you first tell the alleged that his/her allegation may be recordable under 8(c) and ask the alleged to submit a written and signed allegation. If you do not give the alleged the opportunity to submit a written allegation, you are required to transcribe it into writing.
- (b)** Specify type of allegation by checking Human Health or Environment.
- (c)** Provide a summary of allegation including the following data (if available) for health:

### **2. UCC Employee Receiving Allegation:**

The UCC person receiving the allegation should be identified by name, date, site, and title. For UCC alleged see Item 4.

### **3. Implicated Substance, Article, Operation/Process, or Site Discharge**

- (a)** If a specific product, chemical or mixture (e.g. Ethylene Oxide) is identified insert name in 3(a)(i). If only a synonym or tradename (e.g. Catalyst 55) insert in 3(a)(ii) and if only chemical family is known (e.g. amines) insert in 3(a)(iii). Include among synonyms CAS number if known.
- (b)** If the allegation refers to a company operation or process (e.g. Unit II, Warehouse, Storage Tank 5) or refers to the plant, such information should be inserted under 3(b).
- (c)** If the allegation refers to an effluent, emission, or other discharge from a site it should be identified in 3(c).

### **4. Description of Alleged:**

- (a)** The person, organization or firm making the allegation must be identified by name.
- (b)** If a human health effect is alleged, the sex and date of birth of the alleged should be included, if ascertainable, in Item 4(b).
- (c)** The status of the alleged or relationship to UCC, employee, user, customer, should be checked; "other" should be described. "Employee" box should be checked if allegation arose as a result of occupational exposure.

### **5. Follow-up Investigation:**

There is no requirement that UCC investigate the allegations it receives. However, if an investigation is initiated by UCC, the "yes" section of Item 5 should be checked and a copy of the results attached or forwarded for inclusion in the 8(c) record when the investigation is completed.

### **6. Litigation:**

If an allegation is the subject of a litigation the box after General Denial should be checked. If investigations (internal or external) not covered by attorney work product are produced during litigation these should be forwarded to the 8(c) file.

### **7. Other Required Records:**

If UCC is legally required to make and keep any other record or report relating to this allegation, that record or report should be attached (e.g. OSHA Form 101, Worker's Compensation records, TSCA 8(c)). This does not include any other internal UCC record or report except as noted in Item 5 above.

## TSCA 8(c) - RECORD OF ALLEGATIONS OF SIGNIFICANT ADVERSE REACTIONS TO HEALTH OR THE ENVIRONMENT

BEFORE COMPLETING - READ INSTRUCTIONS ON REVERSE SIDE

ALLEGATION # 84-0320

LOCATION OF RECORDS LAW

1. **Description of Allegation:**

- (a) Copy of original allegation - internal or external (please attach)
- (b) Type of allegation (check one): Human Health ☒ Environment ☐
- (c) Summary of allegation: Customer employee suffered industrial bronchitis, occupational asthma, allergic asthma with cough, difficulty in breathing, hypoxemia, psychological trauma including depression due to work exposure to TDI and other isocyanates.

2. **UCC Employee Receiving Allegation:** Peter Davey

Date Received: 06/00/84 Site: Danbury, CT Title: Attorney

3. **Implicated Substance, Article, Company Operation/Process or Site Discharge:**

- (a) (i) Identify by Name: TDI and other Isocyanates  
(product / chemical / mixture / article)
- (ii) Synonyms: Toluene Diisocyanate
- (iii) Chemical Family: Isocyanates
- (b) Operation/Process: \_\_\_\_\_
- (c) Site Discharge: \_\_\_\_\_  
(effluent, emission, discharge)

4. **Description of Allegor:**

- (a) Name of Allegor: Stephen Lefler
- (b) If human health effect alleged include: Sex M ☒ F ☐ U (unknown) ☐
- (c) Status of allegor: (check one)
- (i) Employee UCC ☐ non-UCC ☒ Date of Birth (if known) / /
- (ii) Customer \_\_\_\_\_ (iii) User \_\_\_\_\_
- (iv) Other (describe: neighbor, community official, Union Representative, etc.)  
Set-up Man and Warehouseman, - FORD Utica Trim Plant, MI (6/72 - Present)

5. **Follow-up Investigation:**

4. **Description of Allegor:**

- (a) Name of Allegor: Albert Hedin
- (b) If human health effect alleged include: Sex M ☒ F ☐ U (unknown) ☐
- (c) Status of allegor: (check one)
- (i) Employee UCC ☐ non-UCC ☒ Date of Birth (if known) / /
- (ii) Customer \_\_\_\_\_ (iii) User \_\_\_\_\_
- (iv) Other (describe: neighbor, community official, Union Representative, etc.)  
Millwright for contractor of Whirlpool (1960-1978), Minnesota

5. **Follow-up Investigation:**

- (a) Check one no ☐ yes (if yes, attach copy) ☐

6. **Litigation:** check General Denial ☒

7. **Other Required Record?** no ☒ yes (if yes, attach copy) ☐

## **GENERAL INSTRUCTIONS**

**Note:** Allegation number and Location of Records will be completed by Danbury as part of the centralized 8(c) file system. Instructions are provided by line number.

### **1. Description of Allegation:**

- (a) Attach a copy of the original written and signed allegation to this form. Such an allegation may be made within UCC by an employee (Internal) or to the corporation (External - from a customer, neighbor, user, union, etc.) An allegation must be written and signed. If an oral allegation is made you do not have to write it down if you first tell the alleged that his/her allegation may be recordable under 8(c) and ask the alleged to submit a written and signed allegation. If you do not give the alleged the opportunity to submit a written allegation, you are required to transcribe it into writing.
- (b) Specify type of allegation by checking Human Health or Environment.
- (c) Provide a summary of allegation including the following data (if available) for health:

### **2. UCC Employee Receiving Allegation:**

The UCC person receiving the allegation should be identified by name, date, site, and title. For UCC alleged see Item 4.

### **3. Implicated Substance, Article, Operation/Process, or Site Discharge**

- (a) If a specific product, chemical or mixture (e.g. Ethylene Oxide) is identified insert name in 3(a)(i). If only a synonym or tradename (e.g. Catalyst 55) insert in 3(a)(ii) and if only chemical family is known (e.g. amines) insert in 3(a)(iii). Include among synonyms CAS number if known.
- (b) If the allegation refers to a company operation or process (e.g. Unit II, Warehouse, Storage Tank 5) or refers to the plant, such information should be inserted under 3(b).
- (c) If the allegation refers to an effluent, emission, or other discharge from a site it should be identified in 3(c).

### **4. Description of Alleged:**

- (a) The person, organization or firm making the allegation must be identified by name.
- (b) If a human health effect is alleged, the sex and date of birth of the alleged should be included, if ascertainable, in Item 4(b).
- (c) The status of the alleged or relationship to UCC, employee, user, customer, should be checked; "other" should be described. "Employee" box should be checked if allegation arose as a result of occupational exposure.

### **5. Follow-up Investigation:**

There is no requirement that UCC investigate the allegations it receives. However, if an investigation is initiated by UCC, the "yes" section of Item 5 should be checked and a copy of the results attached or forwarded for inclusion in the 8(c) record when the investigation is completed.

### **6. Litigation:**

If an allegation is the subject of a litigation the box after General Denial should be checked. If investigations (internal or external) not covered by attorney work product are produced during litigation these should be forwarded to the 8(c) file.

### **7. Other Required Records:**

If UCC is legally required to make and keep any other record or report relating to this allegation, that record or report should be attached (e.g. OSHA Form 101, Worker's Compensation records, TSCA 8(c)). This does not include any other internal UCC record or report except as noted in Item 5 above.

## TSCA 8(c) - RECORD OF ALLEGATIONS OF SIGNIFICANT ADVERSE REACTIONS TO HEALTH OR THE ENVIRONMENT

BEFORE COMPLETING - READ INSTRUCTIONS ON REVERSE SIDE

ALLEGATION # 84-0421

## **GENERAL INSTRUCTIONS**

**Note:** Allegation number and Location of Records will be completed by Danbury as part of the centralized 8(c) file system. Instructions are provided by line number.

### **1. Description of Allegation:**

- (a)** Attach a copy of the original written and signed allegation to this form. Such an allegation may be made within UCC by an employee (Internal) or to the corporation (External – from a customer, neighbor, user, union, etc.) An allegation must be written and signed. If an oral allegation is made you do not have to write it down if you first tell the alleged that his/her allegation may be recordable under 8(c) and ask the alleged to submit a written and signed allegation. If you do not give the alleged the opportunity to submit a written allegation, you are required to transcribe it into writing.
- (b)** Specify type of allegation by checking Human Health or Environment.
- (c)** Provide a summary of allegation including the following data (if available) for health:

### **2. UCC Employee Receiving Allegation:**

The UCC person receiving the allegation should be identified by name, date, site, and title. For UCC alleged see Item 4.

### **3. Implicated Substance, Article, Operation/Process, or Site Discharge**

- (a)** If a specific product, chemical or mixture (e.g. Ethylene Oxide) is identified insert name in 3(a)(i). If only a synonym or tradename (e.g. Catalyst 55) insert in 3(a)(ii) and if only chemical family is known (e.g. amines) insert in 3(a)(iii). Include among synonyms CAS number if known.
- (b)** If the allegation refers to a company operation or process (e.g. Unit II, Warehouse, Storage Tank 5) or refers to the plant, such information should be inserted under 3(b).
- (c)** If the allegation refers to an effluent, emission, or other discharge from a site it should be identified in 3(c).

### **4. Description of Alleged:**

- (a)** The person, organization or firm making the allegation must be identified by name.
- (b)** If a human health effect is alleged, the sex and date of birth of the alleged should be included, if ascertainable, in Item 4(b).
- (c)** The status of the alleged or relationship to UCC, employee, user, customer, should be checked; "other" should be described. "Employee" box should be checked if allegation arose as a result of occupational exposure.

### **5. Follow-up Investigation:**

There is no requirement that UCC investigate the allegations it receives. However, if an investigation is initiated by UCC, the "yes" section of Item 5 should be checked and a copy of the results attached or forwarded for inclusion in the 8(c) record when the investigation is completed.

### **6. Litigation:**

If an allegation is the subject of a litigation the box after General Denial should be checked. If investigations (internal or external) not covered by attorney work product are produced during litigation these should be forwarded to the 8(c) file.

### **7. Other Required Records:**

If UCC is legally required to make and keep any other record or report relating to this allegation, that record or report should be attached (e.g. OSHA Form 101, Worker's Compensation records, TSCA 8(c)). This does not include any other internal UCC record or report except as noted in Item 5 above.

## TSCA 8(c) - RECORD OF ALLEGATIONS OF SIGNIFICANT ADVERSE REACTIONS TO HEALTH OR THE ENVIRONMENT

7. **Other Required Record?** no ☒ yes (if yes, attach copy) ☐

## **GENERAL INSTRUCTIONS**

**Note:** Allegation number and Location of Records will be completed by Danbury as part of the centralized 8(c) file system. Instructions are provided by line number.

### **1. Description of Allegation:**

- (a)** Attach a copy of the original written and signed allegation to this form. Such an allegation may be made within UCC by an employee (Internal) or to the corporation (External - from a customer, neighbor, user, union, etc.) An allegation must be written and signed. If an oral allegation is made you do not have to write it down if you first tell the alleged that his/her allegation may be recordable under 8(c) and ask the alleged to submit a written and signed allegation. If you do not give the alleged the opportunity to submit a written allegation, you are required to transcribe it into writing.
- (b)** Specify type of allegation by checking Human Health or Environment.
- (c)** Provide a summary of allegation including the following data (if available) for health:

### **2. UCC Employee Receiving Allegation:**

The UCC person receiving the allegation should be identified by name, date, site, and title. For UCC alleged see Item 4.

### **3. Implicated Substance, Article, Operation/Process, or Site Discharge**

- (a)** If a specific product, chemical or mixture (e.g. Ethylene Oxide) is identified insert name in 3(a)(i). If only a synonym or tradename (e.g. Catalyst 55) insert in 3(a)(ii) and if only chemical family is known (e.g. amines) insert in 3(a)(iii). Include among synonyms CAS number if known.
- (b)** If the allegation refers to a company operation or process (e.g. Unit II, Warehouse, Storage Tank 5) or refers to the plant, such information should be inserted under 3(b).
- (c)** If the allegation refers to an effluent, emission, or other discharge from a site it should be identified in 3(c).

### **4. Description of Alleged:**

- (a)** The person, organization or firm making the allegation must be identified by name.
- (b)** If a human health effect is alleged, the sex and date of birth of the alleged should be included, if ascertainable, in Item 4(b).
- (c)** The status of the alleged or relationship to UCC, employee, user, customer, should be checked; "other" should be described. "Employee" box should be checked if allegation arose as a result of occupational exposure.

### **5. Follow-up Investigation:**

There is no requirement that UCC investigate the allegations it receives. However, if an investigation is initiated by UCC, the "yes" section of Item 5 should be checked and a copy of the results attached or forwarded for inclusion in the 8(c) record when the investigation is completed.

### **6. Litigation:**

If an allegation is the subject of a litigation the box after General Denial should be checked. If investigations (internal or external) not covered by attorney work product are produced during litigation these should be forwarded to the 8(c) file.

### **7. Other Required Records:**

If UCC is legally required to make and keep any other record or report relating to this allegation, that record or report should be attached (e.g. OSHA Form 101, Worker's Compensation records, TSCA 8(c)). This does not include any other internal UCC record or report except as noted in Item 5 above.

## TSCA 8(c) - RECORD OF ALLEGATIONS OF SIGNIFICANT ADVERSE REACTIONS TO HEALTH OR THE ENVIRONMENT

BEFORE COMPLETING - READ INSTRUCTIONS ON REVERSE SIDE

ALLEGATION # 84-1999

LOCATION OF RECORDS LAW

1. **Description of Allegation:**

- (a) Copy of original allegation - internal or external (please attach)
- (b) Type of allegation (check one): Human Health ☒ Environment ☐
- (c) Summary of allegation: Four customer employees have suffered permanent injury to their lungs, and respiratory system, and other areas of their body. They have experienced shortness of breath, severe coughing and wheezing, and other physical traumas such as a sensitizing reaction to TDI due to work exposure to the TDI.

2. **UCC Employee Receiving Allegation:** Peter F. Davey

Date Received: 05 / 01 / 84 Site: Danbury, CT Title: Attorney

3. **Implicated Substance, Article, Company Operation/Process or Site Discharge:**

- (a) (i) Identify by Name: TDI  
(product / chemical / mixture / article)
- (ii) Synonyms: Toluene Diisocyanate
- (iii) Chemical Family: Isocyanates
- (b) Operation/Process: manufacture of polyurethane foam
- (c) Site Discharge: \_\_\_\_\_  
(effluent, emission, discharge)

4. **Description of Allegor:**

- (a) Name of Allegor: see complaint
- (b) If human health effect alleged include: Sex M ☒ F ☐ U (unknown) ☐ multiple

## **GENERAL INSTRUCTIONS**

**Note:** Allegation number and Location of Records will be completed by Danbury as part of the centralized 8(c) file system. Instructions are provided by line number.

### **1. Description of Allegation:**

- (a) Attach a copy of the original written and signed allegation to this form. Such an allegation may be made within UCC by an employee (Internal) or to the corporation (External – from a customer, neighbor, user, union, etc.) An allegation must be written and signed. If an oral allegation is made you do not have to write it down if you first tell the allexer that his/her allegation may be recordable under 8(c) and ask the allexer to submit a written and signed allegation. If you do not give the allexer the opportunity to submit a written allegation, you are required to transcribe it into writing.
- (b) Specify type of allegation by checking Human Health or Environment.
- (c) Provide a summary of allegation including the following data (if available) for health:

### **2. UCC Employee Receiving Allegation:**

The UCC person receiving the allegation should be identified by name, date, site, and title. For UCC allexer see Item 4.

### **3. Implicated Substance, Article, Operation/Process, or Site Discharge**

- (a) If a specific product, chemical or mixture (e.g. Ethylene Oxide) is identified insert name in 3(a)(i). If only a synonym or tradename (e.g. Catalyst 55) insert in 3(a)(ii) and if only chemical family is known (e.g. amines) insert in 3(a)(iii). Include among synonyms CAS number if known.
- (b) If the allegation refers to a company operation or process (e.g. Unit II, Warehouse, Storage Tank 5) or refers to the plant, such information should be inserted under 3(b).
- (c) If the allegation refers to an effluent, emission, or other discharge from a site it should be identified in 3(c).

### **4. Description of Allexer:**

- (a) The person, organization or firm making the allegation must be identified by name.
- (b) If a human health effect is alleged, the sex and date of birth of the allexer should be included, if ascertainable, in Item 4(b).
- (c) The status of the allexer or relationship to UCC, employee, user, customer, should be checked; "other" should be described. "Employee" box should be checked if allegation arose as a result of occupational exposure.

### **5. Follow-up Investigation:**

There is no requirement that UCC investigate the allegations it receives. However, if an investigation is initiated by UCC, the "yes" section of Item 5 should be checked and a copy of the results attached or forwarded for inclusion in the 8(c) record when the investigation is completed.

### **6. Litigation:**

If an allegation is the subject of a litigation the box after General Denial should be checked. If investigations (internal or external) not covered by attorney work product are produced during litigation these should be forwarded to the 8(c) file.

### **7. Other Required Records:**

If UCC is legally required to make and keep any other record or report relating to this allegation, that record or report should be attached (e.g. OSHA Form 101, Worker's Compensation records, TSCA 8(c)). This does not include any other internal UCC record or report except as noted in Item 5 above.

## **GENERAL INSTRUCTIONS**

**Note:** Allegation number and Location of Records will be completed by Danbury as part of the centralized 8(c) file system. Instructions are provided by line number.

### **1. Description of Allegation:**

**(a)** Attach a copy of the original written and signed allegation to this form. Such an allegation may be made within UCC by an employee (Internal) or to the corporation (External - from a customer, neighbor, user, union, etc.) An allegation must be written and signed. If an oral allegation is made you do not have to write it down if you first tell the alleged that his/her allegation may be recordable under 8(c) and ask the alleged to submit a written and signed allegation. If you do not give the alleged the opportunity to submit a written allegation, you are required to transcribe it into writing.

**(b)** Specify type of allegation by checking Human Health or Environment.

**(c)** Provide a summary of allegation including the following data (if available) for health:

### **2. UCC Employee Receiving Allegation:**

The UCC person receiving the allegation should be identified by name, date, site, and title. For UCC alleged see Item 4.

### **3. Implicated Substance, Article, Operation/Process, or Site Discharge**

**(a)** If a specific product, chemical or mixture (e.g. Ethylene Oxide) is identified insert name in 3(a)(i). If only a synonym or tradename (e.g. Catalyst 55) insert in 3(a)(ii) and if only chemical family is known (e.g. amines) insert in 3(a)(iii). Include among synonyms CAS number if known.

**(b)** If the allegation refers to a company operation or process (e.g. Unit II, Warehouse, Storage Tank 5) or refers to the plant, such information should be inserted under 3(b).

**(c)** If the allegation refers to an effluent, emission, or other discharge from a site it should be identified in 3(c).

### **4. Description of Alleged:**

**(a)** The person, organization or firm making the allegation must be identified by name.

**(b)** If a human health effect is alleged, the sex and date of birth of the alleged should be included, if ascertainable, in Item 4(b).

**(c)** The status of the alleged or relationship to UCC, employee, user, customer, should be checked; "other" should be described. "Employee" box should be checked if allegation arose as a result of occupational exposure.

### **5. Follow-up Investigation:**

There is no requirement that UCC investigate the allegations it receives. However, if an investigation is initiated by UCC, the "yes" section of Item 5 should be checked and a copy of the results attached or forwarded for inclusion in the 8(c) record when the investigation is completed.

### **6. Litigation:**

If an allegation is the subject of a litigation the box after General Denial should be checked. If investigations (internal or external) not covered by attorney work product are produced during litigation these should be forwarded to the 8(c) file.

### **7. Other Required Records:**

If UCC is legally required to make and keep any other record or report relating to this allegation, that record or report should be attached (e.g. OSHA Form 101, Worker's Compensation records, TSCA 8(c)). This does not include any other internal UCC record or report except as noted in Item 5 above.

## TSCA 8(c) - RECORD OF ALLEGATIONS OF SIGNIFICANT ADVERSE REACTIONS TO HEALTH OR THE ENVIRONMENT

BEFORE COMPLETING - READ INSTRUCTIONS ON REVERSE SIDE

ALLEGATION # 85-1406

LOCATION OF RECORDS LAW

1. **Description of Allegation:**

- (a) Copy of original allegation - Internal or external (please attach)
- (b) Type of allegation (check one): Human Health ☒ Environment ☐
- (c) Summary of allegation: Customer employee has suffered temporary and permanent injury to  
his lungs, respiratory system, and other areas of his body, specifically shortness of  
breath, severe coughing and wheezing and other traumas due to exposure to TDI, MDI,  
and other isocyanates.

2. **UCC Employee Receiving Allegation:** Peter F. Davey

Date Received: 08 / 00 / 85 Site: Danbury, CT Title: Attorney

3. **Implicated Substance, Article, Company Operation/Process or Site Discharge:**

- (a) (i) Identify by Name: Toluene Diisocyanate (TDI), Diphenyl Methane Diisocyanate (MDI),  
(product / chemical / mixture / article) Isocyanates
- (ii) Synonyms: \_\_\_\_\_
- (iii) Chemical Family: Isocyanates
- (b) Operation/Process: Making of Flexible Foam Insulation
- (c) Site Discharge: \_\_\_\_\_  
(effluent, emission, discharge)

4. **Description of Allegor:**

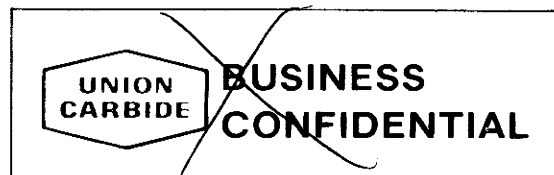

- (a) Name of Allegor: Alphonse H. Blommel
- (b) If human health effect alleged include: Sex M ☒ F ☐ U (unknown) ☐
- (c) Status of allegor: (check one)

Franklin Manufacturing Co., St. Cloud, Minnesota (1956-1983)

**5. Follow-up Investigation:**

- (a) Check one no ☐ yes (if yes, attach copy) ☐

**6. Litigation:** check General Denial ☒

**7. Other Required Record?** no ☒ yes (if yes, attach copy) ☐

## **GENERAL INSTRUCTIONS**

**Note:** Allegation number and Location of Records will be completed by Danbury as part of the centralized 8(c) file system. Instructions are provided by line number.

### **1. Description of Allegation:**

(a) Attach a copy of the original written and signed allegation to this form. Such an allegation may be made within UCC by an employee (Internal) or to the corporation (External – from a customer, neighbor, user, union, etc.) An allegation must be written and signed. If an oral allegation is made you do not have to write it down if you first tell the alleged that his/her allegation may be recordable under 8(c) and ask the alleged to submit a written and signed allegation. If you do not give the alleged the opportunity to submit a written allegation, you are required to transcribe it into writing.

(b) Specify type of allegation by checking Human Health or Environment.

(c) Provide a summary of allegation including the following data (if available) for health:

### **2. UCC Employee Receiving Allegation:**

The UCC person receiving the allegation should be identified by name, date, site, and title. For UCC alleged see Item 4.

### **3. Implicated Substance, Article, Operation/Process, or Site Discharge**

(a) If a specific product, chemical or mixture (e.g. Ethylene Oxide) is identified insert name in 3(a)(i). If only a synonym or tradename (e.g. Catalyst 55) insert in 3(a)(ii) and if only chemical family is known (e.g. amines) insert in 3(a)(iii). Include among synonyms CAS number if known.

(b) If the allegation refers to a company operation or process (e.g. Unit II, Warehouse, Storage Tank 5) or refers to the plant, such information should be inserted under 3(b).

(c) If the allegation refers to an effluent, emission, or other discharge from a site it should be identified in 3(c).

### **4. Description of Alleged:**

(a) The person, organization or firm making the allegation must be identified by name.

(b) If a human health effect is alleged, the sex and date of birth of the alleged should be included, if ascertainable, in Item 4(b).

(c) The status of the alleged or relationship to UCC, employee, user, customer, should be checked; "other" should be described. "Employee" box should be checked if allegation arose as a result of occupational exposure.

### **5. Follow-up Investigation:**

There is no requirement that UCC investigate the allegations it receives. However, if an investigation is initiated by UCC, the "yes" section of Item 5 should be checked and a copy of the results attached or forwarded for inclusion in the 8(c) record when the investigation is completed.

### **6. Litigation:**

If an allegation is the subject of a litigation the box after General Denial should be checked. If investigations (internal or external) not covered by attorney work product are produced during litigation these should be forwarded to the 8(c) file.

### **7. Other Required Records:**

If UCC is legally required to make and keep any other record or report relating to this allegation, that record or report should be attached (e.g. OSHA Form 101, Worker's Compensation records, TSCA 8(c)). This does not include any other internal UCC record or report except as noted in Item 5 above.

## TSCA 8(c) - RECORD OF ALLEGATIONS OF SIGNIFICANT ADVERSE REACTIONS TO HEALTH OR THE ENVIRONMENT

BEFORE COMPLETING - READ INSTRUCTIONS ON REVERSE SIDE

ALLEGATION # 86-0400

LOCATION OF RECORDS LAW

1. **Description of Allegation:**

- (a) Copy of original allegation - internal or external (please attach)
- (b) Type of allegation (check one): Human Health ☒ Environment ☐
- (c) Summary of allegation: Customer employee has suffered temporary and permanent injury to  
his lungs, respiratory system and other areas of his body and experiences shortness  
of breath, severe coughing and wheezing and other physical traumas due to exposure to  
isocyanates such as TDI and MDI.

2. **UCC Employee Receiving Allegation:** Peter F. Davey

Date Received: 02 / 03 / 86 Site: Danbury, CT Title: Attorney

3. **Implicated Substance, Article, Company Operation/Process or Site Discharge:**

- (a) (i) Identify by Name: Toluene Diisocyanate, Diphenyl Methane Diisocyanate, Isocyanates  
(product / chemical / mixture / article)
- (ii) Synonyms: TDI, MDI
- (iii) Chemical Family: Isocyanates
- (b) Operation/Process: manufacture of flexible foam insulation
- (c) Site Discharge: \_\_\_\_\_  
(effluent, emission, discharge)

4. **Description of Allegor:**

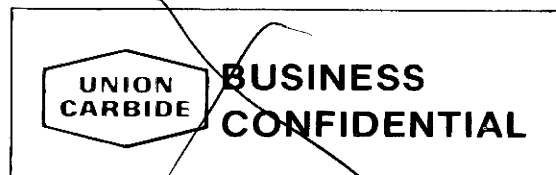

- (a) Name of Allegor: Darrell Magnuson
- (b) If human health effect alleged include: Sex M ☒ F ☐ U (unknown) ☐

## **GENERAL INSTRUCTIONS**

**Note:** Allegation number and Location of Records will be completed by Danbury as part of the centralized 8(c) file system. Instructions are provided by line number.

### **1. Description of Allegation:**

- (a) Attach a copy of the original written and signed allegation to this form. Such an allegation may be made within UCC by an employee (Internal) or to the corporation (External – from a customer, neighbor, user, union, etc.) An allegation must be written and signed. If an oral allegation is made you do not have to write it down if you first tell the alleged that his/her allegation may be recordable under 8(c) and ask the alleged to submit a written and signed allegation. If you do not give the alleged the opportunity to submit a written allegation, you are required to transcribe it into writing.
- (b) Specify type of allegation by checking Human Health or Environment.
- (c) Provide a summary of allegation including the following data (if available) for health:

### **2. UCC Employee Receiving Allegation:**

The UCC person receiving the allegation should be identified by name, date, site, and title. For UCC alleged see Item 4.

### **3. Implicated Substance, Article, Operation/Process, or Site Discharge**

- (a) If a specific product, chemical or mixture (e.g. Ethylene Oxide) is identified insert name in 3(a)(i). If only a synonym or tradename (e.g. Catalyst 55) insert in 3(a)(ii) and if only chemical family is known (e.g. amines) insert in 3(a)(iii). Include among synonyms CAS number if known.
- (b) If the allegation refers to a company operation or process (e.g. Unit II, Warehouse, Storage Tank 5) or refers to the plant, such information should be inserted under 3(b).
- (c) If the allegation refers to an effluent, emission, or other discharge from a site it should be identified in 3(c).

### **4. Description of Alleged:**

- (a) The person, organization or firm making the allegation must be identified by name.
- (b) If a human health effect is alleged, the sex and date of birth of the alleged should be included, if ascertainable, in Item 4(b).
- (c) The status of the alleged or relationship to UCC, employee, user, customer, should be checked; "other" should be described. "Employee" box should be checked if allegation arose as a result of occupational exposure.

### **5. Follow-up Investigation:**

There is no requirement that UCC investigate the allegations it receives. However, if an investigation is initiated by UCC, the "yes" section of Item 5 should be checked and a copy of the results attached or forwarded for inclusion in the 8(c) record when the investigation is completed.

### **6. Litigation:**

If an allegation is the subject of a litigation the box after General Denial should be checked. If investigations (internal or external) not covered by attorney work product are produced during litigation these should be forwarded to the 8(c) file.

### **7. Other Required Records:**

If UCC is legally required to make and keep any other record or report relating to this allegation, that record or report should be attached (e.g. OSHA Form 101, Worker's Compensation records, TSCA 8(c)). This does not include any other internal UCC record or report except as noted in Item 5 above.

## **GENERAL INSTRUCTIONS**

**Note:** Allegation number and Location of Records will be completed by Danbury as part of the centralized 8(c) file system. Instructions are provided by line number.

### **1. Description of Allegation:**

(a) Attach a copy of the original written and signed allegation to this form. Such an allegation may be made within UCC by an employee (Internal) or to the corporation (External - from a customer, neighbor, user, union, etc.) An allegation must be written and signed. If an oral allegation is made you do not have to write it down if you first tell the alleged that his/her allegation may be recordable under 8(c) and ask the alleged to submit a written and signed allegation. If you do not give the alleged the opportunity to submit a written allegation, you are required to transcribe it into writing.

(b) Specify type of allegation by checking Human Health or Environment.

(c) Provide a summary of allegation including the following data (if available) for health:

### **2. UCC Employee Receiving Allegation:**

The UCC person receiving the allegation should be identified by name, date, site, and title. For UCC alleged see Item 4.

### **3. Implicated Substance, Article, Operation/Process, or Site Discharge**

(a) If a specific product, chemical or mixture (e.g. Ethylene Oxide) is identified insert name in 3(a)(i). If only a synonym or tradename (e.g. Catalyst 55) insert in 3(a)(ii) and if only chemical family is known (e.g. amines) insert in 3(a)(iii). Include among synonyms CAS number if known.

(b) If the allegation refers to a company operation or process (e.g. Unit II, Warehouse, Storage Tank 5) or refers to the plant, such information should be inserted under 3(b).

(c) If the allegation refers to an effluent, emission, or other discharge from a site it should be identified in 3(c).

### **4. Description of Alleged:**

(a) The person, organization or firm making the allegation must be identified by name.

(b) If a human health effect is alleged, the sex and date of birth of the alleged should be included, if ascertainable, in Item 4(b).

(c) The status of the alleged or relationship to UCC, employee, user, customer, should be checked; "other" should be described. "Employee" box should be checked if allegation arose as a result of occupational exposure.

### **5. Follow-up Investigation:**

There is no requirement that UCC investigate the allegations it receives. However, if an investigation is initiated by UCC, the "yes" section of Item 5 should be checked and a copy of the results attached or forwarded for inclusion in the 8(c) record when the investigation is completed.

### **6. Litigation:**

If an allegation is the subject of a litigation the box after General Denial should be checked. If investigations (internal or external) not covered by attorney work product are produced during litigation these should be forwarded to the 8(c) file.

### **7. Other Required Records:**

If UCC is legally required to make and keep any other record or report relating to this allegation, that record or report should be attached (e.g. OSHA Form 101, Worker's Compensation records, TSCA 8(c)). This does not include any other internal UCC record or report except as noted in Item 5 above.

## TSCA 8(c) - RECORD OF ALLEGATIONS OF SIGNIFICANT ADVERSE REACTIONS TO HEALTH OR THE ENVIRONMENT
